LCWK8. Infant, neonatal, and postneonatal deaths, percent of total deaths, and mortality rates for the 15 leading causes of infant death by Hispanic origin, races for non-Hispanic population, and sex: United States, 2007

[Rates are infant (under 1 year), neonatal (under 28 days), and postneonatal (28 days-11 months) deaths per 100,000 live births in specified group. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on birth and death certificates. New ICD-10 code J09 (Influenza due to identified avian influenza virus) was added to the category Influenza and pnuemonia in 2007; there were no deaths due to J09 in 2007]

¹ Rank based on number of deaths

^{*} Figure does not meet standards of reliability or precision

LCWK8. Infant, neonatal, and postneonatal deaths, percent of total deaths, and mortality rates for the 15 leading causes of infant death by Hispanic origin, races for non-Hispanic population, and sex: United States, 2007

[Rates are infant (under 1 year), neonatal (under 28 days), and postneonatal (28 days-11 months) deaths per 100,000 live births in specified group. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on birth and death certificates. New ICD-10 code J09 (Influenza due to identified avian influenza virus) was added to the category Influenza and pnuemonia in 2007; there were no deaths due to J09 in 2007]

LCWK8. Infant, neonatal, and postneonatal deaths, percent of total deaths, and mortality rates for the 15 leading causes of infant death by Hispanic origin, races for non-Hispanic population, and sex: United States, 2007

[Rates are infant (under 1 year), neonatal (under 28 days), and postneonatal (28 days-11 months) deaths per 100,000 live births in specified group. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on birth and death certificates. New ICD-10 code J09 (Influenza due to identified avian influenza virus) was added to the category Influenza and pnuemonia in 2007; there were no deaths due to J09 in 2007]

^{...} Category not applicable

LCWK8. Infant, neonatal, and postneonatal deaths, percent of total deaths, and mortality rates for the 15 leading causes of infant death by Hispanic origin, races for non-Hispanic population, and sex: United States, 2007

[Rates are infant (under 1 year), neonatal (under 28 days), and postneonatal (28 days-11 months) deaths per 100,000 live births in specified group. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on birth and death certificates. New ICD-10 code J09 (Influenza due to identified avian influenza virus) was added to the category Influenza and pnuemonia in 2007; there were no deaths due to J09 in 2007]

LCWK8. Infant, neonatal, and postneonatal deaths, percent of total deaths, and mortality rates for the 15 leading causes of infant death by Hispanic origin, races for non-Hispanic population, and sex: United States, 2007

[Rates are infant (under 1 year), neonatal (under 28 days), and postneonatal (28 days-11 months) deaths per 100,000 live births in specified group. Race and Hispanic origin are reported separately on the death certificate. Persons of Hispanic origin may be of any race. Data for Hispanic persons are not tabulated separately by race; data for non-Hispanic persons are tabulated by race. Data for Hispanic origin should be interpreted with caution because of inconsistencies between reporting Hispanic origin on birth and death certificates. New ICD-10 code J09 (Influenza due to identified avian influenza virus) was added to the category Influenza and pnuemonia in 2007; there were no deaths due to J09 in 2007]

Postneonates, Nor All causes 1 Sudden infant death syndrome (R95) 2 Congenital malformations, deformations a 3 Accidents (unintentional injuries) (V01-X5) 4 Gastritis, duodenitis, and noninfective en	evision, International Classification of Diseases, 004), Hispanic origin and sex	Number	of total deaths	Mortality
